MAXPRO 900
ALKALINE
Point of Use
pH Improvement
Post Cartridge

PART # WI-MAX900 With fittings (in retail package) Shipping Wt: 4 lbs. \$86

Maxpro 900 pH adjusting cartridge. Contains 100% calcite from natural sources.

Restores alkalizing minerals (primarily calcium carbonate, along with some magnesium carbonate) to reverse osmosis filtered water. Ideal for persons desiring "Mountain Spring" taste from their RO system.

- Self-limiting; will NOT over-mineralize your water
- Will neutralize acidic water (pH below 7)
- Makes RO water non-corrosive to water using appliances like icemakers and espresso machines. This may be a requirement to maintain the warranty on these appliances.

Dimensions: 12" Long x 2.5" Diameter

Connection: Integral 1/4" push-to-connect fittings

Maximum pressure: 75 PSI

Temperature range: 35 ° F to 100 ° F

Flow rate: 1 GPM

Capacity: 1,000 gallons or one year

Run one gallon of water to flush cartridge upon installation (can be used for irrigation purposes)

MAXIMUM recommended line pressure for this product is 75 PSI. Pressure above 75 PSI indicates the absence of a properly functioning water pressure regulator at the property. Excessive water pressure poses a risk of property damage to you. Problems due to excessive water pressure are NOT covered by this product's warranty. **BEFORE** installation of any Water, Inc. product, confirm that water supply pressure does not exceed 75 PSI. Questions? Contact Water, Inc. Service Depart. at 800.322.WATER(9283)

Installations must comply with appropriate plumbing codes. Do not use vinyl tubing to connect any Water, Inc. Product to a water source. Polyethylene tubing is recommended for cold water applications.
